

Under 395.22(h), carriers are *required* to give their drivers instructions for dealing with ELD malfunctions and enough blank logs to last at least 8 days.

This Kit Contains:

- **ELD Backup Log Book**
 - Provides electronic logging device malfunction procedures and blank logs to help comply with 49 CFR Section 395.22(h)
 - Helps drivers satisfy the record keeping requirements of Section 395.34
 - Includes ELD malfunction reporting and recordkeeping procedures
 - Includes an area for fleet contact information
 - Features instructions for completing logs and an hours-of-service summary on the inside back cover to simplify compliance
 - Book format, 10 sets each of Logs and DVIR forms per book
 - Two plies
 - Carbonless
 - Measures 8-1/2" x 5-1/2"

- **"The Edge" Professional Driver's Ruler**
 - Helps drivers calculate log book entries accurately
 - Helps drivers improve the accuracy of their log book calculations, reducing the chance of excess hours on duty, violations, and fines
 - Reflects current Hours of Service Rule for property carrying drivers
 - Hours of service ruler runs along top edge for easier use
 - Tire-tread depth gauge printed on back side
 - Made of yellow durabrite flexible plastic
 - Measures 2" x 7-1/4"

- **Vinyl Snap-Shut Log Book Cover**
 - Keep log books protected from damage
 - Black, padded vinyl holder
 - For small logs (5-1/2" x 8-1/2")
 - Two side pockets for extra storage capability
 - Includes handy slide rule fixture
 - Two heavy-duty snap closures
 - Measures 10" x 7-1/2" when closed
